Angela, Could you do a letter approving extension request. Daron just did an extension 2 weeks ago that we can use as template. Thanks, Susan

Susan:

Please find attached a 2nd extension request letter for the HCI model modification to the Skyline Mine M&RP. Please call me if you have any questions.

Thanks

Chris

RE: Second Request for an Extension of Time for a Response to the Division's  
Technical Analysis of the HCI Ground Water Report in the PHC, Skyline Mine,  
Canyon Fuel Company, LLC, Permit # C/007/005, Task ID #1752

Dear Ms. White:

Skyline Mine respectfully requests the Utah Division of Oil, Gas and Mining Coal Regulatory Program grant a second extension, this extension for two weeks, for responses to deficiencies found in the latest permit modification referenced above. After meeting with Gregg Galecki yesterday, we both determined that a complete rewrite of the water monitoring schedule tables in the Skyline Mine M&RP is warranted. Additionally, I need some additional time to investigate the potential for perennial flow at Valentine Gulch, a new monitoring site selected during yesterday's meeting. I will be out of the office until March 12, 2004 and unable to complete all of the work until the week of March 15, 2004. Therefore, I am requesting a new deadline of March 19, 2004. If there are any problems with this request, please give me a call at (435) 448-2669. Thank you for your patience.

Sincerely:

Chris D. Hansen  
Environmental Coordinator  
Canyon Fuel Company, LLC.
